City of Bristol Virginia Offering Delivery Service for Compost and Mulch Products

The City of Bristol Virginia is offering high-quality compost and mulch products at competitive prices for residential and commercial use – and delivery is available within the city limits. The compost is a completely organic, processed decomposed product, consisting mostly of ground leaves. Virtually odorless, it contains no garbage waste, is screened to remove debris, and is monitored and tested for moisture and temperature. The mulch is made of only clean, ground wood.

Both products are available in bulk for \$25 per ton or in 40-pound bags for \$2.49 a bag at the city's Solid Waste Management Facility, 2125 Shakesville Road, off East Valley Drive. Facility hours are Monday through Friday, 7 a.m. until 4 p.m., and Saturday, 8 a.m. until noon (seasonally). Cash, checks and credit cards (Visa, MasterCard and Discover) are acceptable forms of payment. Supplies are plentiful now, but may be limited as the season progresses.

Delivery is available for \$5 a load within the City of Bristol Virginia. Call 276-645-3791 for more information, to arrange for delivery or for directions to the Solid Waste Management Facility.
